TRUCK BODIES –
IT'S ALL WE DO.

Steel Force Truck Bodies is a boutique manufacturing company created by powerhouse leaders with over thirty years of experience within the automotive industry.

Our team focuses on key components missing in the truck bodies space like design, functionality, and unparalleled service. Through precise factory methods and quality control, our utility bodies are unlike any other. Your success is our success; therefore, we provide you with the best utility bodies to make your customers happy and allow them to get the job done right.

"Steel Force Truck Bodies has consistently demonstrated their commitment to excellence, providing products that meet and exceed our expectations. Their attention to detail and reliability have been instrumental in supporting our operations at Peoria Ford."

Billy McDowell
Fleet Director
Peoria Ford Arizona

SERVICE BODIES

CONTRACTOR BODIES

AVAILABLE IN 12’

Our contractor body combines our service body with added convenience features to maximize efficiency at job sites. The extended cargo area provides ample space for large equipment and tools, making it ideal for any contractor’s needs. Foldable side and rear stakes secure the cargo area, preventing tools and equipment from falling out during transport. With a range of organizational components, you’ll spend less time searching and more time working, increasing your billable hours.

STANDARD FEATURES

- FOLDABLE SIDE AND REAR STAKES
- COMPRESSION WHALE TAIL HANDLES
- LED LIGHTING IN ALL COMPARTMENTS
- UNDERBODY TOOLBOXES
- DOUBLE PANEL DOORS
- GAS STRUTS
- ADJUSTABLE SHELVES AND DIVIDERS
- DECK MOUNT TOOLBOXES
- PLUG AND PLAY WIRING HARNESS
- PROGRAMMABLE STROBES BUILT INTO TAIL LIGHTS
- MUTLI-PURPOSE ADJUSTABLE RACK
- AUTOMOTIVE WEATHERSTRIP
- STEP BUMPER WITH ALUMINUM TREAD PLATE
- SPRAY IN BEDLINER

THE PROVEN LEADER IN TRUCK BODIES

As industry leaders, market makers, and problem solvers, we are experts in the manufacturing of high-quality truck bodies. In short, no one else can do it like us.

The knowledge runs deep. Our lead engineers and fabricators are true craftsmen, all undergoing rigorous training and certifications to ensure value at every step of the process, taking full ownership of your truck body project from design to delivery.

Our owners and executives have shaped and advanced the industry. This unbeatable team consists of the premier authorities in truck body manufacturing.

What do you say? Let's work together!

BUILT TO LAST - BACKED BY WARRANTY

At Steel Force Truck Bodies, we stand behind the quality of our utility and flatbed bodies with a 3-Year / 36,000-Mile Limited Warranty – whichever comes first.

OUR WARRANTY COVERS

- No Rust-Through: Guaranteed against corrosion that creates holes through the metal.
- Durability You Can Count On: Our bodies are free from defects in materials and workmanship.
- Reliable Components: Standard door latches, lock cylinders, and hinges are guaranteed to operate properly.
- Strong Shelving: Compartment shelving is guaranteed not to bend under loads up to 250 lbs.

WHAT YOU NEED TO KNOW

- Coverage starts from the purchase date or one year from the manufacturing date—whichever comes first.
- Warranty applies to products mounted on their original chassis and maintained according to our guidelines.
- Labor and parts are covered when serviced at an authorized Steel Force Service Center.
